BANK CASHIER MADE PRESIDENT

Samuel M. Bushman Resigns as
Cashier of First National Bank
and is Succeeded by Mr. Musselman. Other Changes.

Samuel M. Bushman, for the past thirty six years cashier of the First National Bank of Gettysburg, this morning resigned that position and was elected president to succeed the late David G. Minter. J. Elmer Musselman, connected with the bank since 1884 was chosen to succeed Mr. Bushman as cashier. P. Ward Stallsmith tendered his resignation as clerk and Edgar L. Deardorff was chosen to fill that position.

Mr. Bushman's connection with the bank started in 1862, forty nine years ago, when he entered the Farmers' and Mechanics' Savings Institution out of which the First National Bank of Gettysburg was later developed. Mr. Bushman's connection with the bank has been marked by a steady increase in business until at the present time the bank stands among the foremost financial institutions in Southern Pennsylvania. His ability was recognized early in his career and in 1875 he was made cashier filling that important position up to the present time Mr. Bushman is one of the most widely known men in the county. His unflinching courtesy to, and interest in, the patrons of the institution have made for him and for it almost innumerable friends, and it was with regret that his resignation was accepted though the bank will still retain his valuable services as president.

Mr. Musselman has been connected with the bank for more than a score of years and he, too, by his courteous treatment has made hundreds of friends, who are glad to see the important position of cashier conferred upon him.

Mr. Stallsmith has been the efficient clerk in the bank for about five years and resigned in order to give his attention to the news stand business which he recently purchased from S. J. Brumbaugh. Edgar Deardorff has been a law student with John D. Keith, Esq., for a year or more and his selection will be generally acceptable to the patrons of the bank.

MRS. SUSANNA GOLDEN

Mrs. Susanna Golden, died Monday evening at 6 o'clock at the home of her daughter, Mrs. Charles Winebrenner on Baltimore street. Death was caused by a complication of diseases. Mrs. Golden was aged 78 years, 11 months and 19 days.

She leaves four daughters and three sons, Mrs. Luther Golden and Mrs. U. S. Kressler, of Hanover; Mrs. Erb, of Dover; Mrs. Charles Winebrenner, of Gettysburg; Harry and Reuben Golden, of York, and Harry Golden, whose home is in the west. She also leaves twenty five grandchildren.

Mrs. Susanna Golden was born at Davidburg, York County. After her marriage she lived at Goldenville until the death of her husband five years ago. Since then she has made her home with her daughter and for the past two years she has been an invalid.

Funeral services Thursday, June 8, meeting at the home of her daughter 423 Baltimore street at 1 p. m. Interment in Evergreen cemetery.

Hanover, York and Mechanicsburg papers please copy.

50TH ANNIVERSARY

Major Charles E. Gilbert and Mrs. Gilbert today celebrated the fiftieth anniversary of their marriage at their home on West Middle street and had with them many of their descendants and friends. An elaborate dinner was served at noon and Mrs. Gilbert received many tokens of esteem from their friends.

The wedding took place fifty years ago today in the old Methodist parsonage, the ceremony being performed by the Rev. Mr. Stevenson. There are now living as descendants six children, fifteen grandchildren and one great grandchild.

BUILDING LOT SALES

Martin Winter has sold building lots as follows: 150-foot front on Lincoln avenue, corner Mummaburg street to Phi Gamma Delta fraternity of Gettysburg College; 60 foot front on Fourth street to Mrs. Harry W. Holtzworth; 52 foot front on York street extended to Miss Agnes McClean.

FOR SALE: roll top desk in good condition. Inquire at this office.

ELECTED NEW PROFESSORS

Annual Meeting of College Board of Trustees Sees New Professors Elected, Salaries Increased and Substantial Gain in Endowment.

At the regular meeting of the Board of Trustees of the college this morning two new professors were elected, the salaries of the present professors were increased \$100 each. President Granville reported a large increase in the endowment and other business of importance was transacted.

Richard S. Kirby, of Port Chester, New York, was appointed to the Burton F. Blough professorship of Civil Engineering, for the coming year. A sketch of Prof. Kirby has appeared in these columns.

Benjamin Franklin Schapple, of Carlisle, was appointed instructor in French for the coming year. He graduated from Dickinson College in 1908. He was a scholar in Germanics at the University of Pennsylvania for one year and, holding the traveling scholarship of that institution, spent a year studying in Germany. During the past academic year he was acting head of the German department at Dickinson College. He will spend the summer at some French university.

The regular professors' salaries were increased from \$1400 to \$1500.

President Granville reported an increase in the endowment of \$31,100 in the past year together with the \$50,000 conditional gift from the General Board of Education. The former sum is part of the \$150,000 necessary to secure the latter.

John F. Dapp, of Harrisburg, was elected a member of the executive committee to fill the vacancy caused by the death of Dr. Butler.

The Board decided to purchase and improve the McPherson property adjoining the college meadow on North Washington street.

Rev. Abraham B. Van Ormer, of Shippensburg, was appointed extension lecturer on educational topics for the coming year to serve without compensation.

Stanley T. Baker was appointed assistant in physics for the coming year.

Two prizes of \$15.00 and \$10.00 respectively were offered by Rev. G. F. Snyder, of Altoona to be contended for by members of the Senior class on the general subject of the application of Christianity to Social Problems. His offer was gratefully accepted.

COMMENCEMENT WEEK

The concert by the combined musical clubs and the college orchestra in Brua Chapel Monday evening was well attended and one of the best commencement concerts which has been rendered in recent years. In addition to the usual numbers there were three specially well received selections by the orchestra, this organization's work being the decided feature of the evening. Prof. Lewars sang, Mr. Ott recited, Mr. Moyer played several solos and the other numbers combined to make an excellent and a varied program.

This morning the Junior oratorical contest for the Reddig prize was held in Brua Chapel. The contestants and their subjects were J. Gould Wickey, Littlestown, "The Call of the Century;" Orville M. Ott, Gettysburg, "Ideals of Peace;" Walter D. Spangler, Gettysburg, "Duty a Privilege;" Earl S. Rudisill, Littlestown, "Sacrifice a Means;" Charles D. Fausold, Littlestown, "Power and its Sources;" Elmer W. Harner, Littlestown, "The Great Man in History."

The prize was awarded to Mr. Harner with honorable mention of Mr. Wickey. The judges were Rev. G. M. Diefenderfer, Carlisle; Rev. S. L. Rice, Lemoyne; Prof. Benschoff Woodstock, Virginia.

This afternoon the class day exercises took place in the chapel, the custom of having them on the campus having to be given up on account of the weather.

FOUND LOCUSTS

A Waynesboro man while digging in his garden unearthed in a space about four feet square 150 locusts about eight inches under ground. When thrown out the shells of most of them burst. The locusts were given to the Waynesboro man's chickens and quickly devoured.

FOR SALE: one of the most desirable residence properties in Gettysburg, consisting of a large brick dwelling house improved with all conveniences, porches, yards, about five acres of land, located on Seminary Ridge near Springs Avenue. For further particulars apply to Martin Winter, agent.

WANTED: automobile repairs and adjustments on Chalmers-Detroit, and Matheson cars by expert mechanic. Write Times Office.

SCHOOL BOARD REORGANIZATION

Gettysburg School Board Elects Teachers for the Coming Year and Forms its Organization. Tax Rate Deferred.

The annual reorganization meeting of the Gettysburg School Board took place on Monday evening when the following officers were elected: president, Calvin Hamilton; secretary, J. Harry Holtzworth; treasurer, Dr. E. H. Markley. This organization holds, under the new school code, until after the election of an entire new board of five members in the fall after which reorganization again takes place.

The following teachers were elected Monday evening, W. A. Burgeon, supervising principal; Miss Helen L. Cope, first assistant; Miss Mame Adams, second assistant; Miss Anna M. Hake, fourth assistant; Miss Lizzie B. Rummel, A Grammar; Miss Mary E. Benner, B Grammar; Miss Hattie McGrew, First Intermediate; Miss Ruth Hamilton, Second Intermediate; Mrs. K. K. Witherow, First Secondary; Mrs. Mary White, Second Secondary; Miss Rachel Scott, First Primary; Miss Grace Sachs, Second Primary; Miss Elinora Ruff, Second Primary; Miss Rose Scott, Third and Fourth Grades; Miss Annie Major, Fifth Grade; Miss Carrie Miller, Sixth and Seventh Grades; Miss May B. B. Curry, Colored School; Mrs. Salome Stewart, substitute.

These teachers were all elected for the entire school year at their former salaries. It may be necessary to give other grades than those named to the teachers of the graded schools but this cannot be determined until the "overflow" schools are known.

Charles K. Little was elected janitor of the High School building; R. M. Elliott of the High street building; and Jacob Ramer of the Meade building. Andrew Utz was re-elected truant officer.

The following committees were appointed, Supply, Calvin Hamilton, E. M. Bender, Peter Culp; Repair, Dr. E. H. Markley, D. S. Coleman, J. Harry Holtzworth.

The matter of laying the tax rate was deferred one week.

NEW HEAD AT DICKINSON

The board of trustees of Dickinson College Monday evening at the conclusion of the annual meeting, announced that Dr. Eugene Allan Noble, president of Goucher College, Baltimore, had been elected president of Dickinson, to succeed Dr. George Edward Reed, resigned. Dr. Noble was chosen for a term of five years, and it was announced immediately that he would accept and would go to Carlisle about September 1 to take up the work. Dr. Reed retires upon a Carnegie Foundation pension of \$2,400 per year. As the active head of the college he received in salary, house rent and other things the equivalent of \$4,000, and it is understood that the trustees had to offer the new president a larger sum.

VANDALS MAKE MAN LEAVE

M. D. Clem, Tomstown, on the other side of the Franklin county line, who has been annoyed so often by vandals, who shot up his house and threatened his life on several occasions has found it too uncomfortable for him to rest in that vicinity, so he has disposed of his property to Ralph Schaffer for \$315 and moved to Fairview. He will assist ex-constable George G. Rock to train a couple of bloodhounds, the latter purchased for the purpose of running down some of the lawless gang in the neighborhood. Mr. Rock has also been bothered by the vandals.

BIG MARKET

This morning was the record for this year for the curb market, about forty wagons being lined around the square. One hundred and ten bushels of strawberries were brought in and all were sold, the prices ranging from three to four boxes for a quarter. The berries were all choice and found ready sale. It was generally stated on the market this was the best morning for strawberries and that from now on the quantity would diminish. There were about seven bushels of cherries offered together with the usual vegetables.

BALANCING ROCK

Among the curiosities in Buchanan Valley is a balancing rock probably 18 or 20 feet high. It is situated on Mrs. George Cole's wood lot and is quite prominent on the hill known as "Brushy Hill," near St. Ignatius church.

FOR SLAE: five thirty foot building lots will be sold cheap, located on West High street near Catholic cemetery. Apply to Martin Winter, agent.

PERSONAL NOTES AND BRIEF ITEMS

Paragraphs of News Telling of the Happenings in and about Town. People Visiting here and those Sojourning Elsewhere.

Mr. and Mrs. Roy E. Smith, of Harrisburg, are visiting friends in town during college commencement week.

Rev. and Mrs. Albert D. Bell, of Steelton, are visiting in Gettysburg for several days.

Rev. Stanley Billheimer, of Norwood, is spending some time at his home on Springs avenue.

Miss Frances Seabrook has returned to Westminster after a visit of several days at the home of Mr. and Mrs. Guyon H. Buehler.

Ross K. Gilbert, of Chambersburg, is spending several days in Gettysburg.

Prof. and Mrs. O. G. Klinger and son have gone to Hazleton where they will remain during the summer months.

Prof. and Mrs. Will D. Moyer and son, of Harrisburg, have been guests the past few days at the home of Mrs. J. W. Richard on Springs avenue.

Miss Margaret Bos has returned to Harrisburg after a visit of several days with friends here.

Mr. and Mrs. Roy T. Brumbaugh are spending a week in Philadelphia. Mr. Brumbaugh will leave in a few days for a three months' trip to Mexico.

Mrs. Donald P. McPherson has gone to Chambersburg to spend several days at her home and to attend Wilson College commencement.

Frederick A. Muhlenberg, of Reading, is a commencement week visitor in town.

Mr. and Mrs. J. M. Van Doren, of New Germantown, New Jersey, are registered at the Eagle for several days.

David F. Miller, of Mechanicsburg, is here to attend his class reunion at college.

Mrs. Paul A. Martin entertained for her guest, Miss Bryan, on Monday afternoon.

Rev. and Mrs. S. Winfield Herman, of Harrisburg, are spending some time with Mr. and Mrs. J. O. Benner on York street.

Samuel B. Meisenholder, of York, is a commencement week visitor in town.

Miss Ellen and Anna Crapster, of Taneytown, were visitors in town Monday.

Rev. Charles W. Baker and family, of New Oxford, are guests at the home of Mrs. T. J. Stahle, on Baltimore street.

Misses Sadie Hahn, of Frederick, Rev. and Mrs. M. L. Clare and children of Spring Grove, are visiting at the home of Dr. and Mrs. Luther Kuhlman on Seminary Ridge.

GAME SEASON OPENS LATER

By a bill which Governor Tener has signed the raccoon is made a game animal, which can be hunted in September, October, November and December.

The same law fixes the season for rabbits, gray, black or fox squirrels, ruffed grouse wild turkeys, quail and pheasants from November 1 to December 15.

Under the old law the open season for rabbits, squirrels and the above birds was: Rabbits, November 1 to December 15; squirrels, October 15 to December 1; ruffed grouse, October 15 to December 1; wild turkeys, October 15 to November 15; quail, October 15 to November 15; pheasants, October 15 to December 1.

It will be observed that the season for all except rabbits has been made two weeks later, which will, it is believed, meet with the approbation of the sportsmen of this section.

WORK FOR AFFLICTED FARMER

The kindness and generosity of York County farmers were proved last Saturday when seventeen teams of men from the neighborhood of Jacobus, did all the field work on the farm of Edward Smith, whose family is afflicted with typhoid fever. The field work was put into top notch order while wood was cut and the chores about the place completed. One of the children, Elmer, died last week, while two other children, Belle and Lottie, are afflicted, but slowly improving.

YOUNG man having two years experience in Philadelphia Hospital wishes position as attendant to elderly or invalid gentleman. Write Times Office.

LETTERS FROM COUNTY TOWNS

Correspondents send in Many Items of Interesting News from their Respective Towns. Personals and Many Brief Items.

EAST BERLIN

East Berlin, June 6—The Mite Society of the Reformed church will hold a festival on Saturday night.

The farmers have finished planting their corn and the welcome showers during the week made the corn fields and garden vegetables look prosperous.

A large crowd of people accompanied the local base ball team to Dillsburg to see a good game which resulted 3 to 1 in favor of Berlin.

The New Oxford team crossed bats with the Athletics here and the game resulted 16 to 0 in favor of New Oxford.

Memorial Day was observed here with a parade by the fire company, P. O. S. of A. and school children, headed by the Spring Grove band, who furnished excellent music. After the exercises were over, a horse belonging to Jacob Smith, of Reading township, got loose in front of Mr. Shetter's meat store and ran out on Main street to the York county line where the animal was caught without much damage having been done.

Our neighbors are a great deal bothered with potato bugs. The rats also are quite plentiful. Sixty seven chicks were killed one night last week for one family in Milltown.

Miss Anna Myers spent a few days last week with her aunt in Gettysburg.

Miss Anna Weaver and her sister Mabel of Gettysburg, spent a few days with their uncle, J. C. Myers.

The Lutheran Sunday School is rehearsing for a children's day service.

The firemen's festival on Tuesday night was attended by a large crowd of people.

Prof. Coit Hoechst and wife are visiting his parents, Mr. and Mrs. I. H. Hoechst and friends in this town.

IRON SPRINGS

Iron Springs, June 6—Charles Wortz and Mrs. Baumgardner, of Hanover, visited Mrs. Catherine Herring and family over Sunday.

Mr. Wavell and daughter, of Gettysburg, spent Sunday with Emanuel Izer and family.

Louis Mizell and daughter, Flora, of Ardsley, N. Y., are spending some time with W. F. Watson and family.

Miss Grace Spangler and brother, Ralph, are spending some time with friends in Hanover.

H. K. Reed made a business trip to Fayetteville and Waynesboro this week.

J. A. Spangler is spending a few days in Littlestown.

Harry Bonebrake moved his sawmill from Rouzerville to the D. R. McClellan tract near Daniel Woodring's property.

Hazel and Jennie Sanders spent a few days with their aunt, Mrs. Andrew Weikert near Gettysburg.

Mrs. Andrew Weikert, of near Gettysburg, spent Sunday with her parents, Mr. and Mrs. Ambrose Sanders.

The property of Samuel Walter vacated by Ambrose Sanders is being repaired by building a new end to it. Lemuel Mickle is the contractor.

John E. Reed wife and child, of Aspers, spent Sunday with his parents at this place.

Mrs. John Bigham spent Saturday with friends at Pennersville.

Frank Felix, of Fairfield Station has moved his shingle mill from this place to the Boyd tract.

W. A. Scott, Esq., spent a few days this week in Gettysburg.

ISAAC PECHER

Isaac Pecher, a prominent citizen of Liberty township and a veteran of the civil war, died Monday morning at 5.30 o'clock of kidney trouble, aged about 74 years.

He leaves his wife and a large family of children.

Funeral Wednesday morning at 9.30 from the Catholic church, Emritsburg. Interment at Emmitsburg.

PURCHASED STORE

D. R. Marshall, of Fairfield, who recently resigned his position as a salesman for the T. H. Vannaman Company, Philadelphia, has bought the good will and fixtures of the Cunningham store stand in Fairfield, from G. W. McGaughlin and will take possession at once.

THERE will be a dancing picnic at Nary's June 10 Refreshments on the grounds.

WRESTLING match. Tickets for the wrestling match are now on sale at all drug stores.

HERMAN RIDDER.

He Denounced Paper Trust at
Reciprocity Hearing.

BOY SUICIDE TELLS OF LOVE IN LETTER

Missing Lad Found Dead in Philadelphia Hotel.

Philadelphia, June 6.—Lying face downward amid a mass of blood-stained bed clothes, the body of Raymond Johnson, the seventeen-year-old school-boy, who disappeared from the home of his uncle, in Germantown, last Thursday, was found in a room at Bennett's hotel, 151 North Ninth street. He had apparently been dead for several hours.

By his side lay a 44-caliber revolver and two notes, crumpled and covered with blood. One was addressed to his mother, telling her not to worry about him and to give his love to Gertrude Johnson, of 6221 Baynton street. The lad also directs that an iron candelabra, made by him at the Northeast Manual Training school, be given to his youthful friend.

The girl's mother said that young Johnson had never called at her home, but that he had held telephone conversations with Gertrude. The second note directed that his uncle, W. K. Johnson, of 79 East Brughurst street, Germantown, be notified.

On a table and about the floor of the room in which the boy was found lay several newspaper clippings. One of them told of the attempts of five persons to end their lives. A man had committed suicide by firing a bullet through his head. The account of this act was heavily underscored in lead pencil and was covered with finger marks. Apparently it had been read over many times.

DAN O'REILLY SENT TO JAIL

Lawyer Sentenced to Five Months in Prison For Receiving Stolen Goods.

New York, June 6.—Daniel O'Reilly, the lawyer who figured in the Harry Thaw trial, and who was convicted of receiving stolen goods in the Hancock bond robbery, was sentenced by Justice Davis to five months in the penitentiary.

Abraham Levy made a plea in behalf of O'Reilly, but District Attorney Whitman made a demand for a jail sentence. O'Reilly appeared to be deeply affected by his sentence.

SULTAN'S LIFE THREATENED

Explosives and Bomb Plant Found on Route He Will Take.

Saloniki, Turkey, June 6.—Big stores of dynamite and a complete apparatus for the manufacture of bombs have been discovered in a secluded defile in the Koeprueue district.

The explosives were found close to the railway over which the sultan of Turkey will pass on a tour of Macedonia.

Lightning Kills Ball Player.

Norwalk, O., June 6.—Frank Van, a ball player, was struck by lightning and killed on the ball grounds. Several other players who sought shelter under a tree were knocked down when a bolt struck the tree. The storm did much damage around Norwalk.

PUBLISHERS FAIR TO RECIPROCITY

No Attempt to Color News
in Its Favor.

PAPER TRUST ATTACKED

Herman Ridder Tells Senate Committee Publishers Are at the Mercy of the Manufacturers.

Washington, June 6.—The hearings before the senate finance committee on the Canadian reciprocity bill formally closed, preliminary to a vote tomorrow.

This morning Secretary of State Knox took the stand and pointed out informally to the committee that the bill as it passed the house embodies the terms of the agreement negotiated between president Taft and Minister of Finance Fielding, of Canada.

Both Herman Ridder, until recently president of the American Newspaper Publishers' association, and Melville E. Stone, general manager of the Associated Press, testified that in their opinion no effort had been made by the newspapers of the country to present only one side of the reciprocity argument, to color their reports on the question or to suppress any facts that were of news value.

Seek Freedom From Trust.

The chief interest which the newspapers of the country have in the matter, Mr. Ridder told the committee, is their desire to free themselves from the paper manufacturers' trust, which now, he added, has the publishers at its mercy. The readers of the country would benefit by cheaper paper, as well as the publishers, he declared, because the money saved on paper could be used to furnish a larger and better news service.

At one point Mr. Ridder charged that a representative of the International Paper company had perjured himself and characterized the men whom he charged with conducting the paper trust as "a gang of thieves."

Mr. Ridder acknowledged that the American Newspaper Publishers' association had sent out bulletins and letters urging the passage of the reciprocity measure. "But I would not have favored the measure," he said, "if I had not thought it would be of benefit to the country as a whole, independent of my interest in it as a newspaper publisher."

When Mr. Ridder attacked the paper trust, which he said limited the output, fixed the price and told a publisher where he must buy his paper, both Senators McCumber and Bailey, opponents of the bill, declared that if there was such a trust they wanted to see it prosecuted by the government.

Mr. Stone testified that no instructions had been sent out to Associated Press correspondents as to Canadian reciprocity, except that they had been told to send any important matter connected with it because of the general interest in the subject. All reports, he said, were supposed to be a recital of facts on their news value only.

Taft Opposes Amendment.

To Senator Stone, of Missouri, President Taft again made it clear that he is opposed to any amendment whatsoever to the Canadian reciprocity agreement.

Senator Stone had heard a report that administration opposition to the Root amendment was not entirely sincere, and that Senator Root had been assured privately that the president would not be displeased if his amendment were adopted.

"I came to the White House," said the senator, "to find out for myself whether the president was in earnest in opposing the Root amendment. And I found out. He told me that he was against the amendment proposed by Senator Root and would be against any proposition by any other senator, Democrat or Republican."

Charged With Forgery.

Austin, Tex., June 6.—Dreeben, assistant state confederate pension commissioner, was arrested at Fort Worth, charged with forgery on two accounts on complaint sworn out by W. P. Lane, state comptroller of public accounts. It is alleged that he is about \$1350 outstanding "straw" pension accounts for which Dreeben is responsible.

Middies Off For European Ports.

Annapolis, Md., June 6.—The practice squadron—the battleships Iowa, Indiana and Massachusetts—with the naval academy midshipmen, sailed for Europe. The cruise will cover 7900 miles and last until Aug. 28. The first stop will be at Queenstown, about June 19.

Mother of Nine at 21 Years.

Calgary, Alta., June 6.—Mrs. K. Kewalsky, twenty-one years old, gave birth to four children, all of whom are alive and well. The woman previously gave birth to triplets and twins.

Vote to Confirm Colored Man.

Washington, June 6.—A favorable report on the nomination of William H. Lewis, the Boston colored attorney, to be assistant attorney general, was authorized by the senate committee on the judiciary.

WILL INVESTIGATE LORIMER'S ELECTION

New Senate Committee is Equally Divided.

Washington, June 6.—A thorough investigation of all the charges of corruption in connection with the election of William Lorimer as a senator from Illinois is assured by the action of the senate committee on privileges and elections.

A select committee of eight senators was appointed to probe into every phase of the Lorimer charges.

 Senator Kenyon, of Iowa, former "trust buster" of the department of justice, was put upon the committee and will be given an opportunity to pursue his inquiry into the part which the beef trust and the lumber trust is alleged to have played in raising funds to elect Lorimer. |

Senator Kenyon prepared the case of the government against the beef trust that is now pending in the federal courts at Chicago. He has been anxious for service upon the Lorimer committee because he believes that a proper investigation would disclose the fact that the beef and lumber trusts raised a huge fund to elect Lorimer. Senator LaFollette charged on the floor of the senate that the two interests named had subscribed more than \$200,000.

The committee authorized will be composed of the following senators: Dillingham, chairman, and Gamble, Jones and Kenyon, Republicans, and Johnston, Fletcher, Kern and Lea, Democrats.

DRAGS RESCUER TO DEATH

Sing Sing Prisoner Gives Life In Attempt to Save Companion.

Ossining, N. Y., June 6.—One convict gave his life in an unsuccessful effort to save another from suicide by drowning.

Antonio Guarro, a morose Italian, fifty-three years old, hurled his slop bucket far out over the prison wall at Sing Sing, and then leaped into the swift-flowing river.

Three members of the squad leaped in after him, but Ernest Sinclair, a youth, alone reached Guarro's side. The latter threw his arms about Sinclair's neck and hung on until both sank together. Later the two bodies were recovered.

Guarro had served several terms before. Sinclair was serving the last of a three-year term for abduction. Both came from New York city.

Two Heat Deaths in St. Louis.

St. Louis, June 6.—Two deaths occurred here from heat, which reached 95, two degrees lower than Sunday, which was the highest ever recorded here so early in the summer. Two hundred East St. Louis high school pupils went on a hot weather strike.

Attention, Horse Breeders! SIETO

The Fine German Coach Horse owned by the Gettysburg German Coach Horse Company, will stand at the following places for the season of 1911:

Monday, at stable of Frank Spangler on Himes' farm near New Oxford.

Tuesday, Thursday and Saturday every week during season at Globe Hotel, Gettysburg.

Wednesday of every week at stable of J. E. Jacobs on farm of U. E. Kelly, close to Willow Grove Schoolhouse, in Cumberland township.

Friday of every week at sale and exchange stable of E. C. Trostle, Biglerville.

SIETO

is a fine Matagony Bay, weighs 1300 pounds, stands 16 hands high. He was imported from Germany in 1906. He is of Oldenburg and Hanoverian Duchy which is among the largest breeders of this type under the German Government Supervision, which produces the finest Cavalry Horses in the world. These large handsome horses are imported most extensively to cross with our ordinary mares to produce handsome carriage and general purpose horses with great lung power and durability.

Pedigree

The German Coach Horse "Sieto" No. 3625—Sire, Sultan II, No. 993, by Martin 815, by Bernhard No. 803. Dam V. Dodo No. 916, by Palatin No. 1189, by Ardo No. 1000, by Agamemnon No. 560. Has been accepted for register in Vol. III of the German Hanoverian and Oldenburg Coach Horse Stud Book August 21, 1906, under the rules of the Association and numbered 3625.

Terms

\$15 to insure mare, 2 mares \$25 to one person, by note at nine months; \$20 to insure standing colt, note to be returned if mare proves not with foal. Any person parting with mare after being bred will be held responsible for insurance. Care will be taken but no responsibility for accidents or escapes.

The Gettysburg German Coach Horse Company,
of Gettysburg, Pa.
D. H. Sterner, Keeper.

FEATHERS AND EGGS' NELS.

It is claimed 1,483 persons were killed in three months in Chicago by bad air in the surface and elevated cars. Closed cars seem as great germ breeders for humans as ill ventilated henhouses are for hens.

A stream of water running through hen runs is a great convenience unless the hens are kept on the hopen plan, when it becomes a menace to all stock on the place.

Mr. E. H. Karlsake, Honesdale, Pa., has demonstrated the usefulness of the incubator for saving puny pigs that need extra heat at birth. Fill up your incubator with little hogs and try it.

When the Franklin County (Pa.) Poultry association counted the receipts and expenditures of its last show its receipts were \$823 and expenses \$823.41. So near and yet not so far!

If you wish to know whether those cakes you buy are made of rots and spots or not just heat them. When cold the rots and spots have the normal egg smell, but when hot they aren't a sweet forgetment.

A Pennsylvania incubator manufacturer claims that his machine hatches 1,200 chicks for less than 21 cents a hatch. Now, if that's a lie it's a whop per.

India Runner ducks originated in a red hot climate and should especially fit the Pacific slope and the southern states. In the last Australian laying contest their average was over 200 eggs per year.

It is now law in New York that food products may be kept in cold storage only six months unless the state superintendent of health extends the time, and he has the power to make it six months longer.

If you happen to be sold a setting of rots, don't flare up and send a rotten letter to the editor. He is not a "trustee of providence," nor does he keep his fingers on all the keys of the universe. Spurious advertisements occasionally slip into papers, religious and secular, for editors are not acquainted with all the rascals of the rogues gallery any more than you are.

The fellow who is too stingy to buy good eggs from a fancier and buys his eggs for hatching at a grocery reminds one of the fellow who married a mulatto because she didn't need to buy a hat to save her from sunburn.

At the late New Orleans show the first prize White Wyandotte hen, valued at \$1,000, was swiped by a hungry negro, who was captured just as he was about to cut off her cackler. Her owner fainted for joy when she was restored to his fond embrace.

Winter eggs are not laid by scrubs any more than by scrub brushers. You are hatching this season to get pullets to lay winter eggs that sell at 60 per dozen, but you'll not get them from stock that looks like 8 cents.

L. M. Parnitz.

In top working fruit trees of any kind

(it is more frequently done in the case of apples) it is well to remember not only that stocks on which the grafting is done should be naturally vigorous and as hardy as possible, but that its rate of growth should be as nearly as possible the same as the variety with which it is top worked. A slow growing top on a more vigorous stock produces a tree that at best is unsightly and uncouth, but where the reverse is the case and the top far outgrows the stock the top of the tree is almost sure to split and break down in the course of a few years, particularly when loaded with fruit. If one does not know the relative vigor of the varieties he may desire to handle in the above manner as stock and scions he can secure the information from his nearest reliable nurseryman or from the horticultural department of the state experiment station.

SAGE TEA WILL DARKEN THE HAIR

Restore Faded and Gray Hair to Natural Color—Dandruff Quickly Removed.

There is nothing new about the idea of using sage for restoring the color of the hair. Our great-grandmothers kept their locks soft, dark and glossy by using a "sage tea." Whenever their hair fell out or took on a dull, faded or streaked appearance they made a brew of sage leaves and applied it to their hair, with wonderfully beneficial effect.

Nowadays we don't have to resort to old-time, tiresome methods of gathering the herbs and making the tea. This is done by skillful chemists better than we could do it ourselves, and all we have to do is to call for the ready-made product, Wyeth's Sage and Sulphur Hair Remedy, containing sage, in the proper strength, with the addition of sulphur, another old-time scalp remedy.

The manufacturers of this remedy authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented. This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. People's Drug Store, Special Agent for Gettysburg.

Hair balls, sometimes reaching a diameter of two or three inches, are now and then found in the stomachs of cattle. They are usually covered with a shell-like crust or coat and are without doubt the gradual accumulation of hair licked from their bodies by animals at the time of the spring shedding.

Pigs Need Exercise.
Don't make the mistake of penning the young pigs so that they cannot have plenty of room to run and play in the sun on the south side of a shed or other building. Lack of exercise is the most fruitful source of thumps, the worst enemy to pigs. All young animals are made for great activity.

Influence of Lazy Mate.
Many a good young spirited horse has his value greatly lessened, if he is not ruined, by being compelled to work beside a lazy, slow mate or one that is so much stronger that to keep up with him requires a constant strain.

A HEALTHY, HAPPY OLD AGE

May be promoted by those who gently cleanse the system, now and then, when in need of a laxative remedy, by taking a desertspoonful of the ever refreshing, wholesome and truly beneficial Syrup of Figs and Elixir of Senna, which is the only family laxative generally approved by the most eminent physicians, because it acts in a natural, strengthening way and warms and tones up the internal organs without weakening them. It is equally beneficial for the very young and the middle aged, as it is always efficient and free from all harmful ingredients. To get its beneficial effects it is always necessary to buy the genuine, bearing the name of the Company—California Fig Syrup Co.—plainly printed on the front of every package.

WASH THAT ITCH AWAY

It is said that there are certain springs in Europe that give relief and cure to Eczema and other skin diseases. If you know that by washing in these waters you could be relieved from that awful itch, wouldn't you make every effort to take a trip to Europe at once? Would you not be willing to spend your last cent to find the cure?

But you need not leave home for these distant springs. Relief is right here in your own home town!

A simple wash of Oil of Wintergreen, Thymol and other ingredients as compounded only in D. D. D. Prescription will bring instant relief to that terrible burning itch, and leave the skin as smooth and healthy as that of a child.

If you have not already tried it, get at least a 25-cent bottle today. We assure you of instant relief.

TAFT BEFRIENDS HEBREW IN ARMY

Reprimands Colonel Garrard For Opposing Advance.

ACTION CAUSES SENSATION

President Writes Sharp Letter Regarding Report of Cavalry Commandant at Fort Meyer.

Washington, June 6. — President Taft has ordered the secretary of war to administer a severe public reprimand to Colonel Joseph H. Garrard, cavalry commanding officer of the military post at Fort Meyer, Va., for exhibiting prejudice against a private in his command because of the soldier's "Jewish extraction and the social standing of his family."

The president said it was hard to deal with the case "with patience and without condemnatory words that had better not be written."

Sensation in Army.

The president's action has created something of a sensation, not only in army circles, but throughout Washington.

The young soldier involved in the controversy is Frank Bloom, a private in Battery F, of the Third Field Artillery. He is now on duty on the Mexican border.

Several years ago Bloom was urged for appointment to West Point. President Roosevelt, not being in a position at the time to make the appointment, suggested to Bloom that he enlist and, "like a true American," fight his way up from the ranks.

The young man took the advice, entered the army, where he is said to have made a good record, and recently took his first examination for promotion. It is said that Bloom failed in this examination, but in view of the prejudice brought about by Colonel Garrard's endorsement, Bloom will be ordered up for final examination again in September.

On this point the president, in a letter to Simon Wolf, of Washington, said:

"I shall take steps to see that the examination to which Private Bloom is subjected is one in which he will be given a fair chance and not be exposed to any unjust prejudice."

Colonel Garrard's endorsement on Bloom's papers, to which President Taft so strongly objected when it was brought to his attention, was as follows:

"The applicant is a son of Joseph A. Bloom, of Jewish persuasion, who is now, and has been for a number of years, a tailor at this post. His association, as far as I know, and that of his family, have been with enlisted men, and their families, and have been respectable."

"The young man is undoubtedly honest and upright, ambitious and probably deserving, but for the reason stated I would not desire him in my command as an officer and a social and personal associate."

"The presence of the applicant's family at a military post would be subversive of discipline and their probable treatment a source of mortification to them and frequent cause of trouble to commanding officers. From an experience of many years I have found, except in few cases, few communities where Jews are received as desirable social associates."

Taft Orders Inquiry.

In directing the secretary of war to inquire into the case President Taft wrote:

"I enclose herewith a letter from Simon Wolf, a lawyer and very prominent and respected citizen of Washington. This gives to the statement he makes every presumption of accuracy and truth. It is difficult for me to read the endorsement of Colonel Garrard, set forth in this letter, with patience and without condemnatory words that had better not be written. I wish you would examine the record and verify the statements of Mr. Wolf, and, if he has not been misinformed—and his letter sets forth the facts—direct that this young man be admitted to examination for a lieutenantancy in the army."

"The statements made by Colonel Garrard are not true with reference to the standing that Jews have in this country, and I resent as commander-in-chief of the army and the navy, that any officer of either should permit himself in an official document to give evidence of such unfounded and narrow race prejudice as that contained in this endorsement."

"After you have made an examination of the record please advise me of your action."

The reprimand as issued from the White House says that Colonel Garrard's attitude in this matter is strongly disapproved as contrary to the ideals and principles of this country.

Found Stabbed to Death.

Latrobe, Pa., June 6.—Rodrig Clement, thirty-seven years old, was found dead with a stab wound through the heart on the road between Gray's Station and Blairsville. He was last seen alive with Augustine Clement, a cousin. The cousin has not been located.

Yellow Fever in Kingston.

Kingston, Jamaica, June 6.—A genuine case of yellow fever was reported here.

If You are suffering with HEAD-ACHES, NEURALGIA OR GRIP, due to NERVOUSNESS, Overexertion, Exposure, Colds, Constipation, etc., take

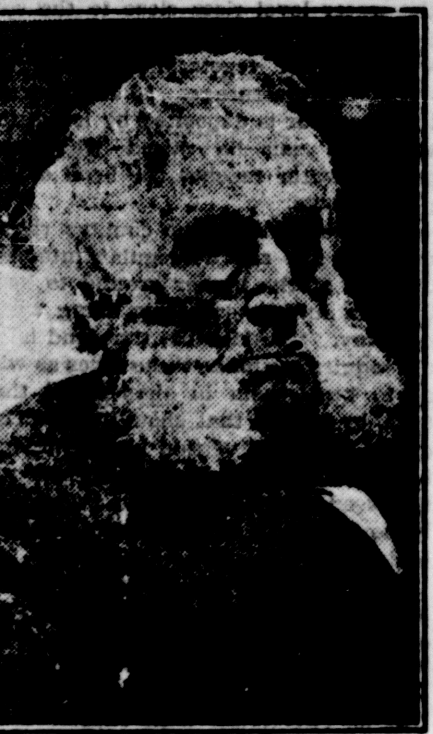

PARR'S CAP-DE-GRIP.

JOHN BIGELOW.

Diplomat and Author Who Is Seriously Ill.

© 1911, by American Press Association.

JOHN BIGELOW IS ILL

Aged Author Is Suffering With Intestinal Troubles.

Highland Falls, N. Y., June 6.—John Bigelow, the author and diplomat, who is now in his ninety-fourth year, was stricken with intestinal troubles, and his physician says that his recovery, of which he has little hope, depends entirely upon the vitality of the patient.

His health, reinforced by his recent trip to Europe, has been surprisingly good up until last Wednesday. It is supposed that he overtaxed his strength at the opening of the New York library on May 23, when, in addition to receiving the keys from Mayor Gaynor, he made a speech lasting fifteen or twenty minutes.

Mr. Bigelow's bad turn came on Wednesday night, and his physician was sent for at once. The doctor remained with him on Thursday and Friday and then returned to New York.

All the members of his family are with Mr. Bigelow at his country residence here.

LEGISLATOR ADMITS TAKING BRIBES

He Will Tell Ohio Grand Jury About Corruption.

Columbus, O., June 6. — Another batch of indictments against Ohio legislators is forecasted this week as a result of the breaking down of Representative Owen J. Evans, of Stark county, a member of the notorious house calendar committee. Evans confessed taking bribes and spent the entire day before the grand jury.

Including two returned, there were three indictments against him. He pleaded guilty to accepting \$100 from L. C. Miller, of Akron, to defeat the stringent salary loan agency bill. Judge Kincaid at once fined him \$500 and let him off without imprisonment sentence on the understanding that he would tell all he knew of legislative corruption to the grand jury.

His attorney, T. H. Clark, told the court that as a result of a statement made last Saturday by C. W. Kempel, clerk of the house, that he unwittingly had been made a tool and had handed Evans \$100, which statement caused immense confusion among solons, a big defense fund had been assured to prevent Evans' conviction, but he had advised the confession which Evans made.

It is believed that a number of legislators will be involved by Evans' statements to the grand jury.

FED HUSBAND TO DOGS

Woman Murdered Husband and Three Remains to Famished Canines.

Vienna, June 6.—In Grosswarde, in Hungary, a woman of means, Madame Filipos, on her property some distance from the city, in company with her manager, Spas, murdered her husband during his sleep.

They cut off his head, concealed it under many hundred weight of loose wheat and threw the body to dogs left without food for several days.

Children playing found human bones in the dog kennel. Filipos, supposed to be on a long journey up the Nile, was missed. Gendarmes submitted the bones to hospital doctors. The murderer and her accomplice have been arrested.

One Killed, 1 Hurt, in Mine Explosion

Wilkes-Barre, Pa., June 6.—Walter Fitzsimmons, aged twenty-two years, was killed and John Quinn fatally burned by an explosion of gas in No. 10 mine of the Pennsylvania Coal company at Pittston. The two men entered their chamber with a naked lamp, which ignited a pocket of gas.

Catching Locusts; Man Is Stung.

Clayton, N. J., June 6.—While catching locusts here Matthew Crane was stung on the left hand by one of the insects and the member was soon swollen to twice its normal size.

FESTIVAL at Guernsey that was to have been held Saturday, June 3d was postponed on account of rain to Wednesday, June 7th.

POISONED MAN BELIEVES WIFE

Says Police Are Trying to Fasten Guilt on Her.

REFUSED TO PROSECUTE

Husband Who Nearly Died From Strychnine Bitterly Denounces Authorities For Accusing His Wife.

Pittsburg, Pa., June 6.—"Minnie is innocent," declared George M. Strohacker in court when his wife was placed on trial, charged with having poisoned him last January by placing strychnine in his coffee and food.

The case in many respects is a parallel to the Schenck sensation that was being aired in Wheeling, W. Va., about the time that Strohacker was taken to a hospital last January in a dying condition and later found to be suffering from strychnine poisoning.

In the face of the dangerous chain of circumstantial evidence presented by the police Strohacker believes his wife innocent. His life hung in the balance for weeks. He recovered and was horrified to hear that his wife had been arrested, charged with the crime.

Strohacker refused to prosecute the woman and is bitter against the authorities for having her indicted and for presenting the evidence against her. He said: "My wife is innocent. Nothing in all this world, police, lawyers, juries and judges can make me believe that she gave me that strychnine. She must be vindicated, for she is innocent. There cannot be enough injustice in this world to convict her."

Strohacker tenderly led his accused wife to a chair in the courtroom and sat with her and her thirteen-year-old daughter throughout the ordeal.

Jessie Miller, a stenographer employed in the offices with Strohacker, testified to the symptoms he displayed soon after he had eaten a lunch prepared by his wife. It was between the sandwich bread in this lunch that Chemist McTaggart said he found white powder strychnine.

Strohacker is bending every effort to have his wife cleared of the charge. "I know I was poisoned," he said, "but Minnie did not do it. Some person did poison me and the police are simply trying to fasten the guilt on her."

JOHN DILLON INJURED

Irish Nationalist Badly Hurt in Auto Accident in Ireland.

Dublin, June 6.—John Dillon, Nationalist member of parliament for East Mayo, was dangerously injured about the head and back in an automobile accident near Dundalk.

It was at first thought that Mr. Dillon was dying, and a priest, who was hastily summoned, administered the last sacrament. The injured man rallied and was removed to Dundalk, where he now lies in a hospital in a dangerous condition.

The automobile dashed into a culvert and Mr. Dillon was thrown through the glass screen.

POSSE HUNTS SLAYER

Shoots and Kills Brother-in-Law During a Quarrel.

Syphax, Va., June 6.—A series of domestic disagreements and misunderstandings led to the killing here of John Reeves, a gardener of the United States department of agriculture, by his brother-in-law, Louis J. Vondermiller, an employee of the bureau of engraving and printing.

The families of both men occupied the same house, and a quarrel culminated in Vondermiller shooting Reeves in the head with a shotgun. A posse under Sheriff Palmer is looking for Vondermiller.

JOHNSON TAKES HIS JEWELS

Colored Pugilist Will Wear Them During Coronation.

New York, June 6.—Jack Johnson, the world's champion heavyweight, will take all his jewels along when he and his wife sail for England for the coronation.

To avoid having to pay duty on his property when he returns he called at the custom house and had the jewelry registered. There were fifteen pieces, some of them valued at several thousand dollars each.

Fireman on Warship Slain.

Washington, June 6. — James L. Saunders, a fireman on the cruiser Saratoga, of the Asiatic fleet, was killed by John E. Atkins, an ordinary seaman of the cruiser New Orleans. The tragedy is supposed to have occurred at the naval hospital at Yokohama, Japan, although the report received at the navy department from Rear Admiral Joseph B. Murdock is not clear on this point.

Slain in Duel Over Insult to Sister.

Raleigh, N. C., June 6.—After a pistol duel over an alleged insult to his sister, J. B. Robertson is dead at his home from a bullet fired by H. W. Montague. The slayer had escorted the young woman in company with Robertson to a wedding.

Take Notice

The big Matheson automobile for hire is now ready every day and evening for long or short trips. Prices very reasonable. Children half price. Call or phone 22 Carlisle street, Gettysburg, Pa.

A CHASE

By ELLA WHEATON

Copyright by American Press Association, 1911.

Mrs. Greatorix was a stepmother. Not all stepmothers, any more than all mothers-in-law, are bad, but Mrs. Greatorix was at least avaricious. She had no children of her own, but a stepdaughter. Moreover, the husband and father had died, leaving \$100,000 to his widow and \$200,000 to his daughter, Alice.

Alice was fifteen years old when her father died and, having no other home, remained with her stepmother. She feared her father's widow and would have been glad to get away from her, but she was too young to lay plans for such a purpose.

There was a clause in the Greatorix will that if Alice was not married by the time she was eighteen \$50,000 of her fortune was to go to her stepmother. If she had no children at twenty-five another \$50,000 was to go to her stepmother. Why Mr. Greatorix threw such a temptation in the way of his wife to keep his daughter unmarried does not appear. The most probable solution is that it was the result of a compromise—that the wife was claiming more and finally got this stipulation out of him.

Unfortunately for the stepmother's plans Alice must go to school. At the high school when she was seventeen she met a youth of eighteen, and between them there sprang up an attachment. Roger Ashurst called occasionally on Alice, but it didn't take him long to discover that he was obnoxious to the stepmother. Opposition is an excellent incentive to love, and Roger as soon as he left the high school and went into business began to lay plans to possess the girl he found so much difficulty in courting. Besides, Alice had told him of the whys and wherefores of the case, and he saw plainly that in order to help Alice he must obtain the legal rights of a husband.

As the girl approached the age of eighteen her stepmother began to watch her very closely—so closely, indeed, that she was unable to communicate with her lover. Mrs. Greatorix intercepting all her letters. Two weeks before Alice's eighteenth birthday she was locked up in her room. But one night as she was going to bed, hearing shot thrown against her window, she opened it, and a stone was thrown in to which was attached a note from Roger stating that he would watch for her aunt to go out and when she did he would enter the house and take her away.

A couple of days after this Alice was not especially surprised at her bedroom door being kicked open, and there stood Roger. Hastily putting on her hat and wraps, she went with him downstairs, got into an automobile and was starting when Mrs. Greatorix appeared, hurrying home.

A garage was located around the corner, and thither the stepmother ran, hired an auto and made chase. The fugitives had taken a broad avenue which was the most feasible outlet, and into this avenue Mrs. Greatorix ordered her chauffeur to proceed. She saw the auto in which her daughter was eloping—she recognized it by its color—just turning into a side street. For several minutes it was lost to her, but on turning into the side street she herself caught sight of it trying to pass a cab that stood in the way. While she looked the auto chugged past the hack and darted on at full pace.

When Mrs. Greatorix reached the vehicle that had blocked the way her chauffeur endeavored to pass it on the right, but at the moment the hack swerved to that side of the narrow street. The chauffeur moved to the left, and the hack also turned to that side.

"Run him down!" cried Mrs. Greatorix. "He's in league with the elopers." But when the chauffeur tried again to make a passage the hack drew out of the way and let him pass. The pursuing auto soon turned into another avenue, and Mrs. Greatorix, looking first in one direction, then in the other, saw the fugitive auto moving southward.

"There it is!" she cried. "Put on all your power." They followed the auto twenty miles into the country, when it stopped suddenly.

"Now's your chance," she said to her chauffeur. "Don't let them get away." But the chauffeur was obliged to slow up for the reason that the driver of the other machine got out to fix something. When Mrs. Greatorix pulled up beside him he was working with a monkey wrench. His auto was empty.

Mrs. Greatorix was so mad that she abused the fellow for leading her on a wild goose chase. He looked at her innocently, apparently not knowing what she was talking about. Then, not waiting for a rejoinder, she ordered her chauffeur to turn about and go back to the city.

Meanwhile the lovers had been married.

Mrs. Greatorix never knew their method of escape. Ashurst had not counted on her returning so soon. Expecting that she would follow, he directed his chauffeur to turn into a side street, and, seeing a hack standing by the curb, he got Alice out of the auto and into the hack only a moment before her stepmother turned into the street and offered the driver a ten dollar bill to drive him wherever he wished to go. When the pursuing auto came up he ordered the driver to stand in its way in order to throw the pursuers off the track.

FOR RENT: house on York street, eight rooms and bath. Mrs. L. D. Miller, 267 Baltimore street.

THERE will be a festival held at Guernsey on Saturday, June 3, on the school ground. All invited to come and have a good time.

NOTICE: let Conover sharpen your lawn mower on his new machine. Conover's antique shop corner Middle and Stratton streets, United Telephone 218 x.

LAXATIVE SENT FREE TO TRY

It may be taken for granted that there is no family that does not sometime need a laxative. If you don't know of a good laxative, or the laxative you are using is losing its effect, we want to call your attention to Dr. Caldwell's Syrup Pepsin, which thousands of families are using successfully.

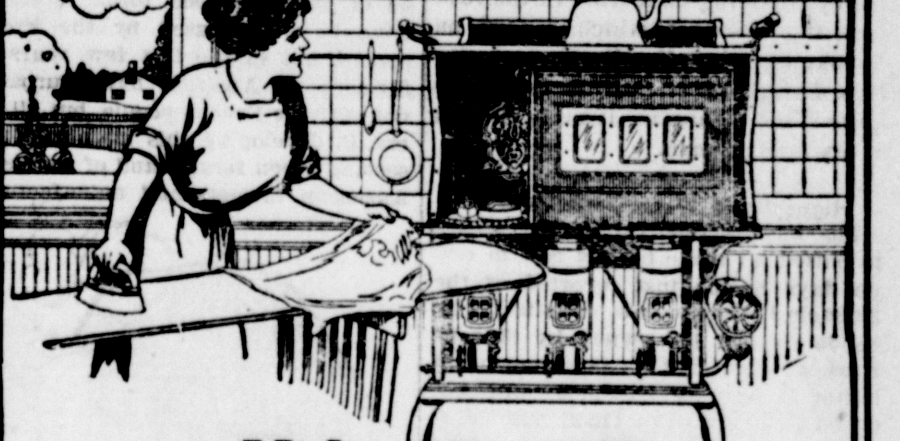

We have scores of letters from mothers, and scores from prominent men saying they are using it personally and giving it to their families, men like Mr. C. K. Smith of the Traffic Clearing House, Pine Bluff, Ark., and Mr. George B. Turner, a lawyer of Harlan, Ky. The thousands of mothers who use it themselves and give it to their children would take too much space to mention.

The reason they prefer Syrup Pepsin is that it is a mild, gentle laxative- tonic that does not gripe—effective and yet so mild that babies can take it. Its tonic ingredients invigorate the body and strengthen the stomach and bowel muscles so that they again do their work naturally. If you have been a victim of salts, pills and strong cathartics you will discard them when you once use Syrup Pepsin.

You can buy a fifty cent or one dollar bottle of any druggist, but before doing so you may want to try it free. If so, send your prompt address to Dr. Caldwell and he will promptly forward a free sample bottle. Then, being convinced, do as others are doing and buy it in the regular way of your favorite druggist.

For the free sample address Dr. W. B. Caldwell, 541 Caldwell building, Monticello, Ill.

For sale by People's Drug Store, Gettysburg, Penna.

Help for All

Andrew Carnegie once suggested as an epitaph for his own tombstone what he said was the secret of his success: "Here lies a man who surrounded himself with men abler than himself."

Many able people are working for you, scientists, inventors, manufacturers, all trying to make something you want. Do you use their brains and their efforts—"surround yourself with them"—or do you plod along by yourself, years behind the times?

Take your own home. Have you your share of modern improvements there—money-saving, labor-saving, health-promoting? One of the most important of these is a New Perfection Oil Cook-stove. A New Perfection stove never overheats a kitchen. It saves your strength. It saves fuel and time. With the New Perfection oven with the glass doors you can go on with your ironing or any other work, and still be sure at a glance the joint is roasting properly.

Made with 1, 2 and 3 burners, with long, turquoise blue enameled chimneys. Handsomely finished throughout. The 2- and 3-burner stoves can be had with or without a cabinet top, which is fitted with drop shelves, towel racks, etc.

Dealers everywhere; or write for descriptive circular to the nearest agency of

The Atlantic Refining Company (Incorporated)

Closing Out

Having decided to close out our Men's Furnishings, Shoes for Adults and Children, Suit Cases, etc., and use the entire store for millinery hereafter, we will sell all these goods at cost.

Factory Prices.

D. J. REILE, Gettysburg, Pa.

FARMERS ATTENTION

Why breed to a grade or common bred stallion when you have the opportunity to breed to an imported black Pure-Bred Percheron Stallion like

ROMULUS, No. 49248

owned by the Adams County Percheron Horse Co., and licensed by State Live Stock Sanitary Board, No. 498.

Terms \$15 To insure mare with foal, by note at 9 months, note to be returned if mare proves not in foal. Care will be taken but no responsibilities for accidents or escapes.

Season Romulus will make the season of 1911—April 1 to July 1, at Ashland Stock Farm, ½ mile south of McKnightstown station and 1½ mile north of Knoxlyn Mills, every week day except Saturday afternoons. Farmers will find it to their advantage to improve their stock by breeding to Romulus. Address all communications to

C. A. HERSHEY, Mgr.,

Tillie, Penna.

Lumber - Lumber Lumber Buyers

Should not fail to examine my large and complete stock of Lumber and Building Material. And with my mill stock I am prepared to meet most all requirements at unheard of low prices which will mean money in your own pocket. So you will do well by getting my prices before purchasing elsewhere, and if quality and prices are not satisfactory I do not ask you to buy.

I am prepared to furnish mill work of every description, such as Doors, Sash Blinds, Frames, Mouldings and Interior Trim of any style you may desire. Also a complete line of porch work. Don't fail to give me a call, all work guaranteed.

United Phone **E. L. LAUVER,** Biglerville Pa.

BUCHANAN VALLEY

Miss Lottie Irvin, of Harrisburg, is visiting at the home of her parents, Mr. and Mrs. Samuel D. Irvin.

Miss Effie Clapsaddle, of Gettysburg, will spend a few weeks with her parents, Mr. and Mrs. Frank Clapsaddle.

Hon. James C. Cole has made several trips to the Valley in his lately purchased auto runabout.

Mr. and Mrs. James Kimple spent Saturday afternoon in Chambersburg.

Miss Myrtle Kimple, of Gettysburg, spent Saturday and Sunday at the home of her grandfather, Theodore Kimple, Sr., of this place.

Miss Edith G. Cole has returned from an extended visit to Altoona, York and other points.

Edward Woodward and family visited Mrs. Woodward's father, William Lauer on Sunday.

On May 30 a young horse belonging to James Kimple was snatched in the leg by tramping on a stick in the road from the effects of which it died on Sunday noon last. Mr. Kimple had purchased the horse this spring, and it is quite a loss to him as it takes one out of his lumber team.

Highest One Week Dairy Record.

The highest reported weekly record in butter fat made by any cow in seven days is one just reported of the Holstein-Friesian cow Pontiac Clotilde de Kol II., owned by Stevens Bros. of New York. The amount of butter fat was 29.77 pounds. She produced in thirty days 116.27 pounds of butter fat. One-sixth should be added to this to change it to marketable butter. This record has not been officially reported by the association, but is undoubtedly correct, since it has been reported in several places to the public.—W. J. Fraser, University of Ill. notes.

It is enough of a trial for the hens to be shut up with green grass and inviting garden patches just through the fence without their being denied the pleasure of a capacious dust bath. This may contain a good quantity of road dust, some wood ashes and two or three pounds of powdered sulphur. A pint or two of kerosene thoroughly worked into the mixture will make it all the more effective as a louse and mite killer.

A Trifling Incident.

An Irishman went into a barber shop, and the unsteady gait with which he approached the chair showed that he had been imbibing of the produce of the still. He wanted his hair cut, and while the barber was getting him ready went off into a sleep. His head kept bobbing from one side to the other, and at length the barber in making a snip cut off the lower part of his ear. The barber gasped, then jumped about and howled, and a crowd of neighbors rushed in. Finally the demonstration became so great that it began to attract the attention of the man in the chair, and he opened one eye and said, "Wh-wh-ah's the matter wid yez?" "Good Lord!" said the barber, "I've cut off the whole lower part of your ear."

"Have yez? Ah, thin, go on wid yer business. It was too long anyhow!"

COMING EVENTS

June 7—College Commencement.
June 12—Xavier School Commencement.
June 19—Frank A. Robbins' show.

GOOD FARM FOR SALE

184 acres in Freedom Township, four miles from Gettysburg, on the west bank of Marsh Creek adjoining farms of S. G. Bigham, J. C. Schriver, John Bigham's heirs and others with public road, orchard, large buildings all good, timber and meadow, seven fields with a level road to each, good water at house and barn. Satisfactory terms. Apply

itching Irritation

Worst Form of Skin Trouble Quickly Cured by Inexpensive Treatment.

When you suffer with any skin trouble, even though the itching seems unbearable, do not think that it is necessary to use some disgusting greasy ointment. Try HOKARA, a pure and simple skin food, that is guaranteed to contain no grease or acids and which is so cleanly it does not soil the linen.

Its power to instantly relieve any irritation of the skin and make it soft white and beautiful is almost miraculous.

Not only are minor skin troubles like pimples, blackheads, acne, barber's itch, etc., quickly cured, but the worst ulcers or cases of salt rheum or eczema are cleansed and healed by this wonderful skin food.

In order that anyone may try HOKARA at small expense L. M. Boudier is selling a liberal sized jar at 25c and in addition guarantee to refund the money if the treatment does not do all that is claimed for it. Larger size 50 cents.

SEE Plank's farm for sale ad on another page.

HAVE a good time at McKnightstown June 10.

FOR SALE: a moving picture business in a thriving town; chance of a life time doing a big business; will sacrifice to a quick purchaser, good reason for selling. Only those meaning business need apply. Address P. O. Box 571, Harrisburg, Pa.

ALWAYS something good to eat at Raymond's Cafe.

Farm and Garden

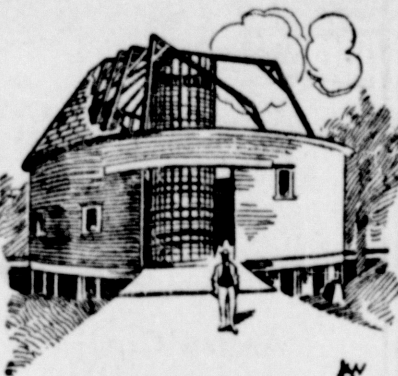

BUILD SILO IN THE BARN.

Then You Have a Combination That Defies All Weather Happenings.

Here is positively the latest and cleverest thing in the great silo question. The cement tank is built in the center of a circular barn, where its contents are not only protected against all weather conditions, but the animals to be fed are protected also.

The power plant in the cup to date barn is easily and cheaply applied for cutting and handling the ensilage, and the whole arrangement seems to be a fine application of the old Latin phrase "multum in parvo."

The word silo comes from the French and means ditch or pit, and this method of keeping green forage seems to have been first used by the French people, but in the last few years the farmers of America have surpassed not only the French people, but all others, in developing this method of preserving green forage, and of course the American farmers and manufacturers

WEATHER PROOF SILO.

have made great improvements in the art.

The original making of ensilage was nothing more than in imitation of the dog that digs in the ground to cover up and keep a bone or something else he wanted to keep and eat at a later date. But, while the silo in the ground serves a great deal better than none at all, it falls short of being as satisfactory as those built above ground.

Of course the practical use of the silo is the keeping of forage in a succulent condition, and the most general adaptation is for the use of dairy cows. In this use of it the consumption of ensilage has increased very rapidly in the last ten years.

It may be that a chemical analysis does not prove that forage of any sort contains more nutriment than the same would have cut and cured in the regular way, but it has been the experience of all who have used good corn ensilage that it is the best method to preserve corn for cattle.

The digestive nutrients in forage of any sort seems to be kept in a more satisfactory condition as ensilage than any other way, and a far greater quantity per acre can be got from the land, so that any farmer who keeps many cattle will be certain to find that the silo is very necessary on his farm.

Cheers For the Glass Hen.

The "frost proof" hen may be coming, says the Rural New Yorker, but the glass hen is here, and one of her June eggs in January does very well. Water glass or silicate of soda is the best family preservative for eggs, and it will pay any farmer to breed the glass hen. Eggs laid in April, May and June are best for preserving.

Boll nine gallons of water. After it has cooled pour in one gallon of water glass and stir it thoroughly. Put in a stone jar and gently place in the mixture about thirty dozen eggs. Get them as close to laying as possible and have them clean. Put the jar in the cellar or a dark room, cover it over and let it alone until you want the eggs. For family use the glass hen is a wonder—in its way a good partner for alfalfa, vetch and the rest of the farm helpers.

CHEER OF THE FLOWER GARDEN.

The flower garden may not be as profitable as the vegetable garden, but will add cheer, comfort and contentment to the home. The rest and peace of mind afforded by strolls in the flower garden are not to be compared with money.

The Child Meant Well.

The governor of Maine was at the school and was telling the pupils what the people of the different states were called.

"Now," he said, "the people from Indiana are called Hoosiers, the people from North Carolina Tarheels, the people from Michigan we know as Michiganders. Now what little boy or girl can tell me what the people of Maine are called?"

"I know," said a little girl. "Mainiacs."—Popular Monthly.

These Hens Roost High.

Possibly the most remarkable poultry establishment in this part of the country is located in Boston on the roof of one of the leading hotels. An employee has been keeping successfully a flock of about twenty-five hens. Located in the very center of the city, the birds thrive and lay well and a flock of chickens is being raised to keep up a supply. The eggs are used in the hotel and certainly ought to be fresh enough to satisfy the most exacting guest.

Dairy Doings.

Don't feed out all the clover to the cows. Have a nice lot for the sheep. They will get as much good out of it as any animal on the farm.

The bull's dam is a big factor in the success of his progeny. Get a bull from a large producing cow, and the more such cows in his pedigree the better.

A cow which is gentle and which has never been known to kick will

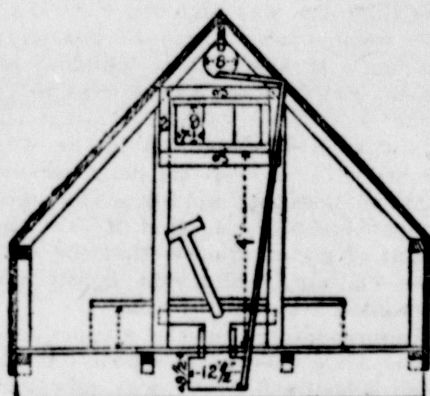

GASOLINE HEATED BROODER.

One Holding Two Hundred Chicks May Be Made by Any Farmer For \$36.60.

A gasoline heated colony brooder like the one pictured here, holding 200 chickens, can be made complete, including labor, at a cost of \$36.60, or 18.3 cents per chicken, says the Country Gentleman. The house is eight feet square, inside floor measure, and six feet six inches high. The floor sills are of 2 by 12 inch stock cut eight feet long. An opening 9½ by 12½ inches must be cut in the rear sill to admit the burner box.

The floor should, if the house is to be used in winter, be double. In building the subfloor use rough, cheap lumber and lay diagonally to stiffen the building; then over a layer of building paper the finished top floor is laid, which should be of a good grade of matched and planed lumber.

The studs are now put up. These, together with the plates and rafters, are made of 2 by 2 inch clear hemlock stock. The studs are placed flush with the outer edge of the floor. The raft-

CROSS SECTION OF A SHAPED COLONY HOUSE, SHOWING POSITION OF WINDOW, GASOLINE CAN, PIPE AND HEATER BOX IN REAR.

ers are nailed to the ridgeboard before putting them in place, and then the boarding is put on. The boards are put on horizontally when the house is covered with paper and are placed to overlap the floor four inches. The building is inclosed with seven-eighths inch matched siding, planed on one side, which is turned in. The boards for the sides and roof are cut in eight foot lengths and the ends boarded vertically, thus using sixteen foot stock without waste.

The chick outlet is made through a trapdoor cut in the floor at the edge of the front runner and at the outer edge of a middle 2 by 4 inch joist. A runway with cleats, supported at the upper end of the 2 by 4 joist, leads to the ground at the edge of the house. The back of this runway is closed with boards to keep the chicks out from under the house.

No Excuse For Ignorance.

An aged farmer at an extension school of agriculture recently said: "I am glad to be able to learn so much about farming, but it makes me sad to think that it comes too late in life to do me any good. If I had only known these things years ago I would have avoided so many mistakes and done so much better."

It may be said to contemplate benefits that come too late, but it is sadder still to think of the young men who do not try to avail themselves of knowledge that is placed before them. There is no longer any valid excuse for ignorance of the fundamental principles of farming.

Agricultural experiment stations, extension schools, institutes, bulletins and papers are within reach of every farmer in the land who really wants to learn.

The time the farmer spends over his desk and reading table is often the best time of the year.

General Farm Notes.

A good way to avoid the credit system is to grow the living at home. It is usually possible to grow the most expensive, yet the most necessary, articles of food on the farm.

At our present rate of deforestation fuel and fencing materials will be very scarce within a few years. Plant waste lands in forest trees to supply the timber required on the farm.

Diversified farming is adapted to the man who does intensified thinking. The intensive thinker is always a success as a farmer or in any other occupation where his talents lead him.

Johnson grass hay is a product that will enable you to meet the demand of your animals for roughage. Johnson grass is a splendid crop and should be kept where it is wanted.

Keep up with your work in saving and applying the manure from your animals. The amount and kinds of food that will be available for them next year will depend largely upon the manure applied to the farm.

The flower garden and the lawn do not add to the profits of the farm, but they give pleasure and contentment to the manager and his family. Ornamental plants do much to endear your sons and daughters to the homestead.

If you have not enough moisture in your soil to germinate fall grains have the land ready and sown early in the spring. Spring oats often yield well, and when sowing can not be done in the fall the next best thing to do is sow in the spring.

Invite the business men with whom you trade to come out to the farm and pay you and your family a social visit. The presence of the city bred men will give you higher ideals, and your country hospitality will do them good. This will broaden your view of life and enable you to enjoy better business relations with city people.

Don't learn to kick? she is beaten. She will treat you pretty much as you treat her.

The man who cannot milk without abusing cows has no business in the cow stable. A kick or blow will retard the secretion of milk and may injure the cow for time to come.

Small, undersized heifers should not be bred too early. It is cheaper to have vigor and size at a greater expense of feed, so as to get the heifer into the herd at twenty-four or twenty

GOOD AND CHEAP HOGPEN.

Place It So as to Give the Piggies Plenty of Sun—They Need It.

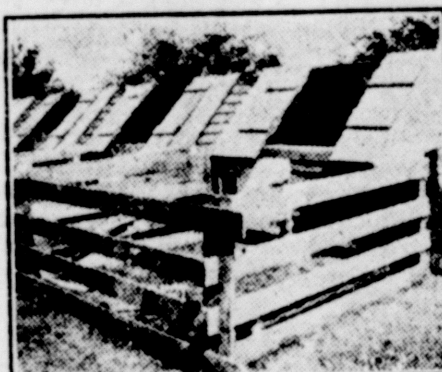

A good and economical cot for hog raising is shown in the accompanying cut. It is made of skids 4 by 6 and 9 feet long. The joists are 2.2 by 6 and are laid flat. The roof doors are eighteen inches wide, and paper and lap siding are used for the walls. The pen is a convenient knockdown arrangement.

The whole thing can be built for \$25.

About the best floor is the ground, with woven wire stretched on top to prevent the hogs from rooting. Electrically welded corrug wire is very satisfactory. This makes a floor which is easy on the hogs, almost free from rats and, if properly bedded, warm and dry. It is, however, more difficult to keep free from dust than some other floors. Many concrete floors are used, but they are cold, liable to be wet and are hard on the hogs' feet. Often almost an entire pig crop and many sows are lost by taking cold on concrete floors. Concrete floors are, however, very satisfactory when covered with plank overlays or false floors, which should be raised from the concrete about an inch by nailing cleats on the under side.

Board floors are expensive, short lived, cold if up off the ground and make the worst kind of rat harbors. Rats may be kept out by packing sand or cinders to the top of the joists before laying the floor, but these materials are often too expensive to be used for this purpose. It is still hard for many farmers to get rid of the notion that anything is good enough for a hog. Yet there is no animal on the farm which requires better protection from cold than the hog, none for which a good bed is more necessary and none so much in need of sunshine as the little pig. The horse and the cow have good coats of hair, even a calf or a colt when left in the cold is provided with a good fur coat, the hen's feathers are the best of protection against cold, but the hog has almost nothing between his skin and the weather.

One of the first requisites for success with hogs is a shelter where young pigs can be kept warm and well supplied with sunshine and fresh

BEST STYLE OF PIGPEN.

air. A little pig takes cold very easily and recovers slowly if at all. To prevent taking cold he must be kept dry, warm, away from drafts and provided with fresh air.

A little pig loves sunshine and needs it almost as much as he needs food. No piggery is fit for the purpose unless it admits direct sunshine on to the floor of every pen at the time the pigs are farrowed, furnishes plenty of fresh air and provides for exercise in the open air. Dryness, sunshine, warmth, fresh air, freedom from drafts and exercise are of primary importance in raising pigs. These secured, the battle is half won. In putting up buildings the six requirements just mentioned must be kept constantly in mind. Not one can be neglected.

Whitewashing the inside of the house is an excellent practice. Besides going a long way toward disinfecting, it increases the light materially. When the sunshine strikes a whitewashed floor and does a great deal of good. Dark houses which must be used will be much improved by whitewashing.

Poultry Pickings.

Keep the egg record up every day. If you skip one day even the rest will be a guess, and guessing isn't business. Trap nests are not expensive, but they are very essential to the well directed poultry farm. By using trap nests you can keep a record of the eggs.

The profit in poultry raising for market lies in hatching early, pushing the chickens forward as rapidly as possible and marketing them early in the season.

It will not do to allow ducks to share the common lot of poultry in general—not that they require more attention, but rather a different manner of handling and feeding.

Many people are realizing the profit in raising heavy geese, as they are worth more a pound than the lighter breeds, and every year there is more demand for the Toulouse.

A hen should be fed some grain that she doesn't have to scratch for. Although exercise is necessary to keep her in good health, she needs time to rest and dust herself in the middle of the day.

Treatment for roup: One ounce permanganate of potash to three pints of water for submerging the head. For drinking purposes dilute one pint of the above mixture in three or four pints of water.

Onions chopped fine and mixed with the hen's food occasionally will promote health. Onions are a great poultry tonic, and they are relished by fowls old and young. Fall hatched chicks tumble over one another to get their feed when onions are mixed with it.

Seven months.

No farmer would think of putting his family on a ration of bread alone, or even bread and potatoes, for one day, yet we see many a man compelling his dumb, helpless animals to eat a single roughage ration for months at a time.

Governor Hoard once said on the color question: "If grass had produced green butter the oleomargarine people would be coloring their product green. It has been said where substitution is possible fair competition is impossible."

PLOWING WITH DYNAMITE.

Bang, Bang! Will Resound Over the Farm as Geo-haw Once Did.

In places where irrigating is carried on extensively, says the booklet "Increase the Crop," got out by the Pennsylvania railroad, the ground sometimes becomes so saturated that the water level rises close to the surface. This makes the land practically worthless for vegetation of any kind other than pasture. If alkali exists in the soil or is deposited by irrigation no crops can be raised when the ground water reaches the level of the plant's roots.

In some parts of the country ridges or dikes are run at regular intervals over all of the higher ground to keep the thin surface soil from being washed away. Considerable time and labor are required to make these dikes as well as to keep them in shape, and they take up ground that should be bearing crops. On land of this kind drainage, irrigation, dikes, late plowing and rotting seed could all be done away with if the subsoil or hardpan were properly broken up.

There is only one practical way to upturn and aerate these lower soils or to shatter hardpan, and that is by blasting.

Subsoil and hardpan can be plowed just as effectively with explosives as

GIANT CORN PRODUCED ON BLASTED GROUND.

[From "Increase the Crop."]

surface soil can be with a plow, and just as cheaply, too, for it is only necessary to do this subsoil plowing once in a number of years.

Blasting subsoil has been practiced for some years by a few progressive farmers in different parts of the country. These men have had wonderful results in the way of increased crops on land already under cultivation and in transforming into excellent growing land that which would have been worthless without dynamite.

It is only lately, however, that the benefits from plowing with dynamite have become generally recognized. The department of agriculture, the various agricultural colleges and men prominently identified with farming in different parts of the country are all now making a careful study of this question in order to determine the strength, quantity and kind of explosives, the most effective way of using them and the depth and spacing of the holes for best results. Farmers everywhere are experimenting on their own account. Many are already claiming that subsoil plowing with explosives will be a common custom in a few years and will represent millions of dollars in increased crops from lands already under cultivation and more millions from land now producing nothing but weeds and considered entirely worthless.

The man who provides himself with everything new and useful for carrying on the farm work and leaves the household with implements that date back to pioneer days is not deserving of larger success.

About Live Stock.

Stuffing the colt with hay or straw or any coarse feed will spoil its looks. Keep this rationed down by the use of some grain and less coarse feed.

Steers fed on clover hay will not only consume more roughage, but also more grain, than those fed on timothy hay if both grain and roughage are fed according to appetite.

It is the farmer who keeps sheep for a number of years that finds them most profitable. Some years they will return a much better profit than others, and it is hard to sell and buy at just the right time.

The ration of the driving horse should be different from that of the average work horse. This is due in a large measure to the peculiar demands of such an animal. It should be fed much less roughage in proportion to its size than a horse at ordinary work. The roughage should also be of different nature.

The ram should not run with the ewes during the winter. He will worry them, and one but might kill a lamb. He should have a box stall, not large, with a good, strong yard attached, where he can be out of doors on all fine days. Never leave him out in a storm so that his fleece will become wet, as it might mean death. Feed him regularly and enough to keep him in good, thrifty condition.

The dairy interests of the country do not object to the selling of oleomargarine as oleomargarine; it is not jealous of its competition, but coloring the stuff yellow permits fraud, does away with competition. Dairymen are not trying to annihilate oleomargarine, but the fraud it has created.

Some thoughtful men have hit on the idea of putting a light of glass in chicken coops to make them more cheerful when the chicks have to be shut up on rainy days.
